REGIONAL NEWS

23 stakeholders trained in the collection and processing of data from the ECOWAS Agricultural Trade and Market SCORECARD

The representatives of the countries trained will be responsible for passing on the knowledge acquired to the other members of the groups formed

23 stakeholders and partners specialized in agricultural trade and markets in West Africa and Chad now have a better understanding of the ECOWAS Agricultural Trade and Market SCORECARD (EATM-SCORECARD). The participants, from Burkina Faso, Ghana, Mali, Niger, Sierra Leone, Chad and Togo, and ... [Read more](#)

Environmental and social safeguards: AGRHYMET Regional Center staff trained

The staff of the AGRHYMET/CILSS Regional Centre are well equipped for the successful implementation of environmental and social safeguards.

From 20 to 23 February 2024, around twenty members of staff from the AGRHYMET Regional Center gained a better understanding of how to consider the concepts of environmental and social safeguards, including gender-based violence (GBV), sexual exploitation and abuse (SEA) and... [Read more](#)

Meteorology: a joint WMO-RAC/RCC-AOS mission exchanges views with the National Meteorological and Hydrological Service of Togo

The joint WMO-ARC/RCC-OSA mission to the RAAA Headquarters held fruitful discussions with project coordinators.

Established in July 2020 as the Regional Climate Centre for West Africa and the Sahel (RCC-WSA) by the ECOWAS Commission, the AGRHYMET Regional Centre (ARC) now provides regional climate monitoring based on field observation data ... [Read more](#)

Food safety in West Africa and the Sahel: experts hold the 2nd regional convergence meeting in Accra

Experts from the 17 countries and their partners shared their experiences of implementing the priorities in their countries.

More than eighty-five food safety experts from seventeen countries in West Africa and the Sahel and their partners met in Accra from February 26 to 28, 2024 to take stock of food safety in the sub-region. Set up as a regional network for regulatory convergence ... [Read more](#)

Burkina Faso/Climate change adaptation: the FSRP intends to focus its activities on carbon projects

Climate change experts shared their experiences in setting up carbon projects

Stakeholders and partners of Burkina Faso's food system came together to discuss the main activities and priority actions with a view to putting in place innovative mechanisms for adapting to climate change. In Burkina Faso, carbon projects are becoming... [Read more](#)

Ghana: FSRP brainstorms with Lead Ghanaian Poultry Industrialists for Take-Off

Broiler chickens ready for sale on a farm in Accra

The West Africa Food System Resilience Programme (FSRP) has engaged a selection of qualified Ghanaian poultry industry anchor farmers and production groups to straighten-out final arrangements for the take-off of the FSRP Poultry Intensification Scheme. The scheme targets the production of at least 2million broiler birds by the end ...
