

Projects resulting from the sixth call for proposals of the Regional Agency for Agriculture and Food as part of the implementation of the regional Support Project to the Agroecological Transition in West Africa (Patae)

As part of the implementation of its regional Agricultural Policy ECOWAP, the Economic Community of West African States (ECOWAS) created the Regional Agency for Agriculture and Food (RAAF). RAAF's mission is to operationalize this Policy by relying on institutions, organizations and actors with proven expertise. To do this, it chooses an innovative approach based on concrete interventions, through projects with national and/or regional implementation potential. These projects are carried out by the actors at the grassroots level. The approach used gives priority to Calls for Project Proposals (AP), which confer more project engineering responsibility on these actors, within an agreed framework involving them and ECOWAS. RAAF then takes care of the necessary technical support/accompaniment and monitoring-evaluation of these projects.

It is within this framework that a sixth Call for Proposals for RAAF projects, financed by the French Development Agency (AFD) for an amount of 4.6 million euros, was launched on 13 July 2018, with a view to implementing innovative multi-stakeholder projects on the agro-ecological transition in West Africa. At the end of the selection process, fifteen (15) field projects out of 143 proposals submitted to RAAF were selected to receive grants from Ecowas. The list of the 15 recipient projects is presented in the table below.

N	Promoters	Project Title	Country	Amount granted by FDA
1	TV-BF	Sharing the Sahelian Bocage (BSP)	Burkina-Faso	304 999 €
2	UPPA-HOUE	"Improving the production and efficiency of organic fertilizer use in production systems in western Burkina Faso" (APEUFO)	Burkina-Faso	304 955 €
3	ACF	Project for Supporting Ecological Transition in the Eastern Region of Burkina Faso (PATEB)	Burkina-Faso	305 000 €
4	ANOPACI	Implementation of integrated fish farming production systems in Grand-Lahou	Côte d'Ivoire	274 418 €
5	AFDI	Implementation of integrated fish farming production systems in Grand-Lahou	Côte d'Ivoire	298 910 €
6	IECD	Agro-ecological transition of market gardeners in Côte d'Ivoire (TAMCI)	Côte d'Ivoire	304 960 €

7	UAVES	Support to Agricultural Producers' Organisations for innovation, adaptation of family farming systems and sustainable management of natural resources through Agroecology (AOPAE)	Mali	304 844 €
8	FPGL	Support for Agro-ecological transition in Mali through Synecoculture	Mali	304 392 €
9	AMEDD	Agro-ecological intensification and sustainable management of spaces and natural resources in southern Mali	Mali	304 905 €
7	UAVES	Support to Agricultural Producers' Organisations for innovation, adaptation of family farming systems and sustainable management of natural resources through Agroecology (AOPAE)	Mali	304 844 €
8	FPGL	Support for Agro-ecological transition in Mali through Synecoculture	Mali	304 392 €
9	AMEDD	Agro-ecological intensification and sustainable management of spaces and natural resources in southern Mali	Mali	304 905 €
10	ASPRODEB	Supporting the Resilience of Agropastoral Family Farms (PAREFA) to the Effects of Climate Change Project	Sénégal	302 854 €
11	ECLOSIO	Yéssal sunu mbay (clean up our agriculture)	Sénégal	305 000 €
12	THP	Agro-Ecological Intensification and Valuation of Family Farm Products	Sénégal	240 474 €
13	CED	Promotion of agro-ecological family farms producing maize and soya for sustainable incomes in the TOGO plateau region (PEFARD-TOGO)	Togo	304 736 €
14	ETD	Project to support the consolidation and scaling up of agro-ecological practices in the plateau and central regions (ProCEPA)	Togo	303 870 €
15	RAFIA	Sustainable Intensification of Agro-ecological Practices in the Savannah Region	Togo	304 892 €
			Total Funding by FDA	4 469 209 €
